KOL- CB4

Ultrasonic jammer Cigar box

KOL CB4 is a unique cigar box shaped system specially designed to protect confidential internal conversations from cell phone recording and eavesdropping. This innovative solution neutralizes the microphones of up to 4 mobile phones placed inside the box, by transmit a white noise sound which blocks any possability of recording the conversation inside the room by one of the participants as well as cellular interception by an outside party.

The ultrasonic barrier ensures a silent operation that does not interfere with the conversation taking place in the room. Operating the system is easy and simple and Using the system is completely safe.

The **KOL CB4** is blocs the microphones of all types of cell phones currently avilable in the world.
The system works by connection to electricity as well as by using an internal battery that works 10 hours.

The system is provided with Elegant cigar drawer with 4 quality cigars,
a cigar cutter, lighter and a tabaco humidor.

Technical Specifications:

Frequency range of ultrasonic interference	25kHz ± 2kHz.
Power supply	220V/19V
Battary operating time	Up to 10 hours
Battery standby time	Up to 6 month
Weight	2.0k
Device dimensions (mm)	320x200x125
